17 December 1962

MEMORANDUM FOR: Committee on Overhead Reconnaissance

SUBJECT: Frequency of Readout of Cuban Targets

1. The attached schedule for readout of Cuban targets, originally prepared by the National Photographic Interpretation Center, has been coordinated with and contains the amendments suggested by COMOR members. It is issued this date and represents present COMOR policy.

2. Should the need arise, changes in the readout schedule or in specific targets will be made by the COMOR Working Group with notification to NPIC.

3. Other considerations:

- a. All COMOR targets will be checked on every mission but reported on as above and listed in each IPIR with a code notation for covered, not covered, deficiency in coverage (such as scattered clouds, shadow, haze, obliquity, poor image, small scale), or no change.
- b. The entire mission will be scanned so as to determine if any new developments are evident.
- c. Any changes to targets not reported on daily will in all cases be reported out whenever observed.
